## Principal's Message..... Namaskar

As we prepare to embark on another year, I am reminding that the beginning of school is truly a special time, and I am eagerly looking forward to partnering with you as we continue to nurture the ongoing development of your child. Fortunately, our school continues to be a team of exceptionally talented and committed staff that is anchored by a supportive Central Office Administration and Management. To help each child achieve his/her fullest potential, the school provides both enrichment and intervention supports to students. We believe in knowing each child by "name and need." The Crossroads teachers and administrators, during the winter break, were busy to develop student's schedules, participated in ongoing professional learning opportunities, realign curriculum, and planned lessons for the upcoming school session. I certainly look forward to see you at these PTM days and other events during the school year. Research shows that parental involvement in a child's education benefits the child. These benefits results in higher levels of academic achievement, positive attitudes, and greater maturity and responsibilities. Because the benefits are very solid, that I urge you to take part as much as possible in the life of our school. Your assistance as a volunteer would be extremely valuable to our students. Consider becoming a school volunteer. There are many areas where your help would be appreciated. Please know that I am available to meet with you in person or talk to you over the telephone to discuss any concerns you may have. As the instructional leader of this campus I am responsible for all decisions made in the best interest of your children. I look forward for a great year and to meet all our new children and their families.

With regards
